IGV 645.0 / 645.1 / 645.2 Replacing the circulation pump

As of production in calendar week 46 2006, the ASCOLL circulation pump (picture 1) and CRIN (picture 2) will be replaced by the MPH circulation pump (picture 3). For appliances in which the MPH circulation pump has been installed as a standard, the 12-digit code will end with a "5", e.g. IGV 645.2 will have the code 845 646 01835.

POS	Spare-part. no.	Designation
4000	43 47 09	Circulation pump (CRIN not Ascoll)
4001	43 53 68	Foam spacer for Ascoll
4050	43 54 51	Pump case for Ascoll
4500	43 47 17	Heating element
7550	43 47 68	Bend

POS	Spare-part. no.	Designation
4000	43 47 09	Circulation pump complete CRIN
4050	43 60 50	Pump case for CRIN
4052	43 60 77	Drain service kit CRIN
4200	43 60 51	Capacitor

The following spare parts are available:

POS	Spare-part. no.	Designation
4000	43 60 78	MPH 220-230 V EURO kit
4500	43 60 79	Heating element and pump case 220-230 V EURO
4501	43 60 80	Drain kit
4502	43 60 81	Suction bend kit
