Service hinge for heavy kitchen unit fronts IGV 6504.0, IGV 6507.1, IG 6504.0E, GSV 6600, MGV 6600, IGV 6507.0, IGV 65.0

Description:

New hinge sets are available - only as spare parts - for 60-cm wide built-in and fully integrated dishwashers suitable for use with very heavy kitchen unit fronts. The unit fronts may weigh from 7 kg to 11.5 kg.

The new sets contain pressure spring hinges with a single fulcrum.

Description	Features	Unit front weight	Spare-part no.
Door hinge set left-right	Single fulcrum	from 7 to 11.5 kg	438936

Appliances affected:

60-cm wide dishwashers which originally had hinges bearing spare-part number **437053** or **436782** fitted, may all be fitted with the new set of hinges.

Spare parts:

Comments relating to exchangeability:

The new hinges are completely exchangeable with the hinges bearing the original spare-part no. In order to exchange the sets of hinges when repair or maintenance work is carried out, the two screws highlighted in the illustration below will need to be screwed out in order to fasten the hinges to the tub brace.
