

## Mounting Instructions ZUB 530

The water connection has to be performed by an authorized expert.

Appliance connection valve with integrated return valve  
**(customer-provided)**

Aqua-stop valve! Setting to lowest value. See illustration

**Optional accessories: Water filter ZUB 531** with connectors and clip bands. Mount approx. 15 cm behind the Aqua-stop! Make the screwings of the water filter close by using the supplied Teflon tape and insert the filter approx. 15 cm behind the Aqua-stop valve into the hose. The hose has to be disconnected at this point.

**Attention**

Install the intake hose behind the appliance in a large loop.
